

RETICULATION/RETICULAR PATTERN

- A collection of innumerable small linear opacities that, by summation, produce an appearance resembling a net
- Descriptive term associated with interstitial lung disease
- *Reticular pattern* and *honeycombing* should not be considered synonymous

GROUND GLASS

Hazy increased opacity of lung, with preservation of bronchial and vascular margins

Ground-glass opacity is less opaque than consolidation, in which bronchovascular margins are obscured

Fleischner Society: Glossary of terms for Thoracic Imaging. Radiology 2008
