

Emergence of JAK Inhibitors in the Treatment of PSORIATIC ARTHRITIS

INTERNATIONAL SPEAKER
DR PAUL BIRD
 Conjoint Professor
 University of New South Wales, Sydney, Australia

Paul Bird has over twenty years' experience in treating rheumatic disease, with particular expertise in Rheumatoid arthritis, Psoriatic arthritis and Ankylosing spondylitis. Professor Bird received his medical degree with Honours from the University of Newcastle, and he completed his physician and rheumatology training in Sydney. Pursuing research alongside clinical medicine and patient care, he completed a PhD in 2005 examining MRI in Rheumatoid arthritis, and a Graduate Diploma in MRI. He continues to undertake arthritis research with fellow Australian rheumatologists and with international colleagues. Internationally recognised as a specialist in rheumatic disease and imaging, he is the current Chair of the International Magnetic Resonance Imaging Research association and actively participates in national and international rheumatology research.

CHAIRPERSON
